## SIZING GUIDE - RINGS

### HOW TO FIND YOUR RING SIZE

#### STEP 1

Print this document on a sheet of A4 paper at actual size. To make sure your document has been printed at actual size, please check that the scale below measures exactly 5 cm:

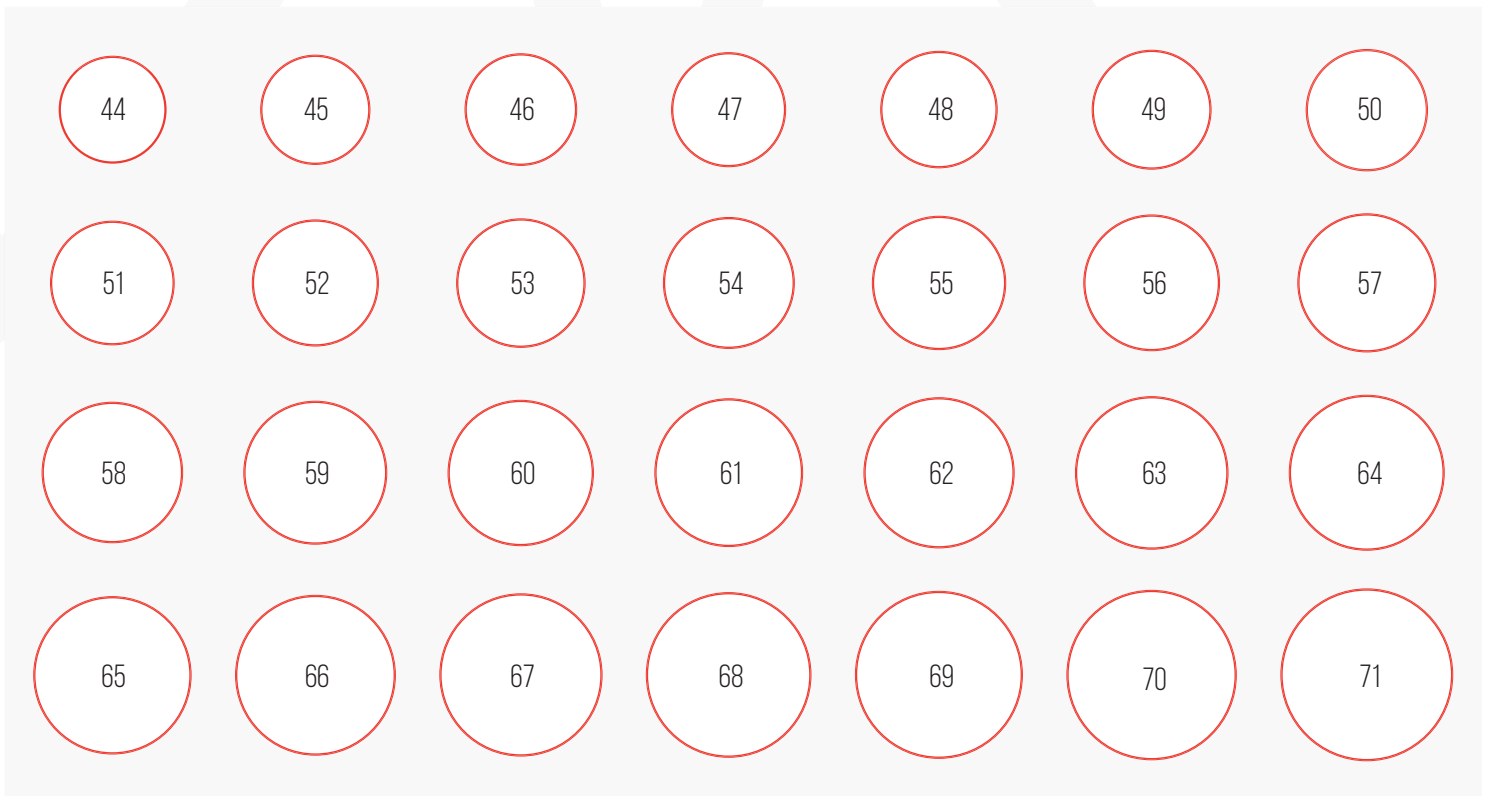

#### STEP 2

To determine the best size for you, take a ring (ideally a band) that fits perfectly (please note that finger sizes often vary from hand to hand).

#### STEP 3

Place the ring on the circle with the closest diameter.

The inner circumference of the ring should be perfectly aligned with the outer circumference of the circle: you should see the red line entirely inside the ring, without being able to see the external grey background.

If your ring is between two sizes, we recommend choosing the larger one.
